

What: Hot Springs Trail Maintenance Work Bee (or hike only) & Soak (optional)
When: Sunday, August 7
Work Bee Meet: 8 am
Hike only Meet: 10 am
Location: Lower Hot Springs Trail Head off Alexander Road N50.269328 W117.774223
Direction: One-way with charter bus shuttle from Nakusp Hot Springs back to lower trailhead
Shuttles: First at approximately 2 pm for non-soakers and a later second for soakers!
What to Bring: Lunch, lots of water, appropriate clothing, boots and work gloves, swim suit

The Hot Springs trail is in need of general maintenance. A work bee is needed to hike the trail, brushing, raking and grading along the entire route. This work will be completed with hand tools only, cutting small roots and branches, raking debris and rocks and some shovelling and work with Pulaski's to level uneven sections on that trail.

Your attendance and contribution is requested to keep our area trails in safe and accessible condition for our community and visitors and an opportunity to spend the day on this great trail in fellowship with other society members.

The work bee will start at the lower Hot Springs trail head (accessed off Alexander Road) on Sunday August 7th at 08:00 am. We will end the working hike with a soak at the Nakusp Hot Springs, for those that are interested. A bus charter bus will be available to shuttle work bee participants and hikers back down to the Trail Head. The first departure will leave around 1 pm (or as required) to shuttle the non-soakers back to their vehicles, with a second shuttle a bit later for the soakers!

Those wishing to hike only will meet at the lower trailhead at 10 am so both groups end at around the same time.

The shuttle bus will return you to the last signed turn-off to the trailhead. You may have to walk a few hundred meters if you parked at the end of the road.
